Dietrich College Dean's Office of DEI

MVP Presentation

Gloria Moon, Gus Saalfeld, Neha Choudhari
67-373 IS Consulting Project

Elevator Pitch

“We are working to standardize DEI data collection with Associate Dean Ayana Ledford to solve time inefficiency, tedious labor, and communication issues. This adds value by allowing Ayana to save time, focus on other tasks, and measure the real impact and success of DEI efforts easily. We do this differently by providing **ONE standardized way of collecting, storing, and viewing data** *for everyone. Can the success and impact of events be measured without concrete data?”*

Client: Ayana Ledford, Associate Dean of Dietrich DEI

- *Oversees Dietrich departmental DEI efforts*
- *Communicates with department heads, business managers, and event administrators*

Dietrich College DEI Advisory Committee

- Jason England, assistant professor of English
- Anne Lambright, professor of Hispanic Studies and head of the Department of Modern Languages
- Ayana Ledford, associate dean for Diversity, Equity and Inclusion
- Kody Manke, assistant teaching professor of psychology
- Nico Slate, professor and head of the Department of History
- Joe Trotter, Giant Eagle University Professor of History and Social Justice, Director of CAUSE
- Ana Maria Ulloa-Shields, associate dean of Student Success

Dietrich College DEI Implementation Committee

- Department of Economics: Carol Goldburg
- Department of English: Richard Purcell and Nick Ryan
- Department of History: John Soluri
- Information Systems: Julia Poepping
- Institute for Politics and Strategy: Emily Half and Ignacio Arana
- Department of Modern Languages: Vera Lampley
- Neuroscience Institute: Darcy Griffin and Gerry Balbier
- Department of Philosophy: Danielle Wenner
- Department of Psychology: Jessica Cantlon
- Department of Social and Decision Sciences: Kevin Jarbo
- Department of Statistics & Data Science: Laura Butler

Finding Pain Points

- **Data Collection**
  - *collecting, standardizing and storing data*
  - *using data to measure effectiveness of diversity initiatives*
- **Communication**
  - *manually reaching out to department heads for data*
  - *no incentive/reminder for faculty to store and send data*

Interviewing the Dietrich Ecosystem

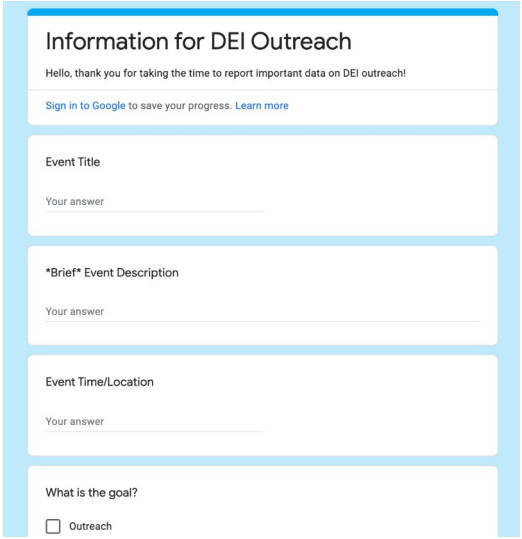

an exercise in triangulating the truth

- *Interviewed 8 stakeholders + a committee*
- *Challenges: decentralized, many stakeholders, many opinions/perspectives*
  - *Whose pain-point is most important? Whose perspective is right?*
- *Process:*
  - *Complex system, many solutions---prioritizing pain points*
- *Value*

Proposed Solution

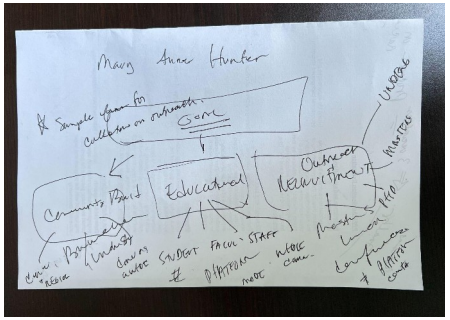

- *Dynamic form allowing members to upload event metrics to a* **central** *spreadsheet*
- *Eliminates need to request programmatic data, user-friendly, one data storage, assess impact*

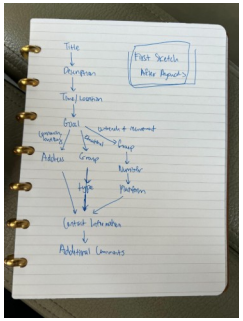

- *Looking into multiple tools:*
  - *Google Form*
  - *Qualtrics*

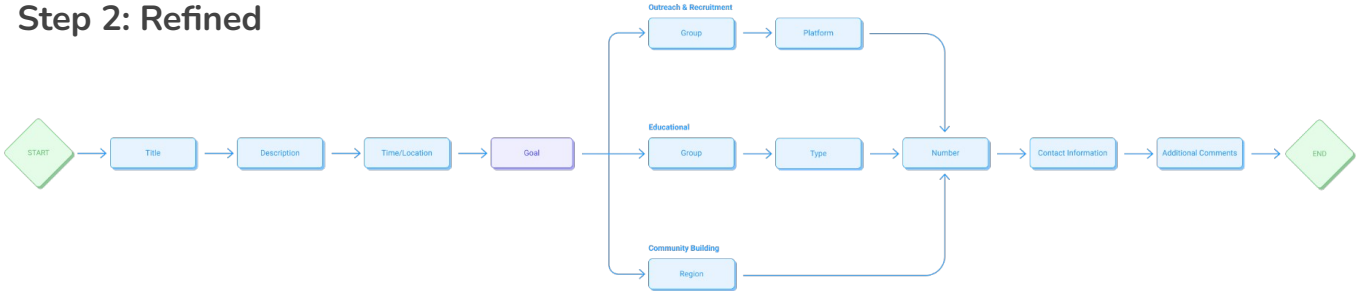

Information Flow

Step 1: Sketches

Step 2: Refined

Next Steps

- *Finish meeting/interviewing* **stakeholders**
- *Gathering* **specifics** *(ex. types of events)*
- *User-testing + incorporating* **feedback**
- *Next* **iteration** *+ implementation*

THANKS!

Any questions?
